RE: multiple problems sending email of Protest

Dear Tom and Ellen Weir,

This is to acknowledge receipt of your Letters of Protest emailed to the Public Service Commission. I am forwarding the email and Letters of Protest to our Clerk's Office for processing. The email and Letters of Protest will become a part of Docket No. 2012-177-WS and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling Administrative Assistant

2. Please give a concise statement of your protest, * (This section must be completed. Attach additional information if necessary.)

Plctures were taken at my Chelsea Day Lane neighbor's yard – specifically the leaking water supply (Tega Cay Water side of the meter). The plantings are on my side of the property line. My neighbor's yard and lawn were completely soaked and two of my plants were significantly damaged since they were in the resulting saturated area. The company did come out promptly to check on the problem, but then it was a number of days (perhaps a full week) of complete saturation before the repair crew arrived. All of this occurred around the middle of September 2012. If this leak could have been repaired promptly, I do not believe the yard or plants would have been damaged. This water system problem is within 100 yards of the leaking hydrant that was identified in February. Is Chelsea Day Lane destined to have continued future system failures due to poor maintenance practices?

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? *
